THE MILWAUGHE, WATERTOWN AND BARABOO VALLET R. R. The last Waterlown Democrat contains the following patter of this road: The amount of business new esing done by the Milwaukes, Watertown and Barabos Valley Railroad is much greater than it has ever transacted road is much greater than it can over transacted herotoline. The passenger cars are generally crowded, and the long trains of freight cars havily loaded, both ways. The receipts daily increase, and average more than any provious season. We received these lacts from sources entirely reliable. The prespects of this road are most encouraging. Every mile that is extended beyond Columbus into the fertile region which beyond Columbus into the fertile region which it is destined to traverse, must largely add to its business and value. Already it is paying property. It is managed with produce, care, and vigor, and we have no doubt that the enterprise region with a felling of the agency.

Southern Sympathy for Douglas. The Richmond Enquirer disapproves the war made upon Douglas and his friends, by the Pros-ident, and affects to discredit his well known direct interference against the Illinois Sanator in the recent convention bold in that State. The Enquirer says: "We cannot believe that Mr. Buchanan is so disregardful of his position as

the head of the Domocratic party, as to sack the perpetuation of so fatal a breach as that which threatens the Illinois Democracy." And again: "We hope the Democracy of Illinois will "We hope the Democracy of Illinois will meet in one Convention, and nominate officers without regard to Lecompton. A fearful responsibility will rest upon that wing of the party which refused to unite, and keeps alive, for "vindictive persecutioe," this unfortunate schiem. The Democracy of the South will not stand quiet and see its most effective allies of the Northwest hopelessly divided and destroyed, to gratify "vindictive personation" upon an "ex-tinct issue." Fearful will be the responsibility resting upon the Administration if it does not use every legitimate effort to harmonize the par ty—it claims the wictory upon Lecompton, and can therefore, with peculiar grace, profer the nips of reace.

SAD CASUALTY,-Ou Saturday last, three boys a son of Ira Parker, and two brothers, George and Frank Younglove, were out shooting pigeons in the town of Marion. When they saw the Frank pulled the rod, and in doing so the gun was discharged, the contents passing through his body. He was immediately carried to a house near by, and a messenger dispatched for a surgeon. Dr. Dedson was very soon on the consin street, and whose fair proportions were spot, but could render no assistance; the boy lived but about five hours.—Wautoma (Wair share Go.) Journal.

A Noble Deed.

From the Bloomington (III) Pantagraph, High Alrs. Caroline C. Strauburg, wife of P. P. Strauburg, of this city, wat a passenger on the Pennsylvania, which was burned to the water's edge, on the Mississippi, sixty miles below Mem-phis, on Sunday morning, the 12th instant.— Mrs. S. left her berth just before the explosion took place; and when she heard the report, which shook every plece of timber in the boat, she caught hold of her little child, which was only two mouths old, and rushed into the ladies' cabin, at the very moment that a piece of ma-chinery crashed through the sloor. She ran to the captain's room and told him the book was on fire, but he said she was mistaken, and advised her to be caim. She said she was not mistaken, and her manner was so carriest that the ceptain, thinking she might be correct, went down to the boiler deck. He returned in a short time, and remarked to Mrs. S., "There is no danger now—the lies been subdued."

Mrs. S. however, would not be convinced; she insisted that the best was in flames, and

told the expense to make preparations for saving the passengers. As she finished speaking the dames broke through the cable floor, and in less than a minute the cable, was filled with senoke. She saw that the time for action had arrived, and She keew that her life and that of her child depended upon her own exercious; so she want down the private stair case, and was fortunate onough to reach the boiler deck in safety.—
Knowing that she would perials by fire if she staid on the book, she determined to leave it and tun the risk of meeting her death by another method. She accordingly scient as he will cost him at least fifty thousand dollars, unthe of She accordingly scient by another staid on the book, she determined to leave it and the risk of meeting her death by another should be should be staid as the staid on the book, she determined to leave it and the risk of meeting her death by another should be sh

A short time after leaving the boat, she saw a muc struggling in the water, and she knew from his movements that he was too much exhausted to save himself from going to the boltom, so she generously and nobly juopardized her lite to may his; she grasped him by the arm, at the risk of being pulled from her frail support, and assisted him is gotting upon a little piece of 'piank, that was bardly sufficient to keep horself and 'child

CITY IMPROVEMENTS-FOURTH WARD .- WO publish, this morning, the report from the City Land Office of the buildings in progress in the Fourth Ward. They number sixty, mostly dwelling houses, and will cost, in the aggregate, upwards of two hundred thousand dollars. count and estimate were carefully made by Mr. Wall, assisted by several prominent citizens of

the Fourth Ward. Talking of these reports, yesterday, with one of our oldest and best mechanics, he assured us that there were more dwelling houses and stores now under contract and in progress, within the limits of our city, than at the same time in any provious year of his long residence here.

A prominent Lumber Dealer also informs up that he had sold, since the 10th of April to as list cant promesting that a half months—more than half as much Lumber as he sold all last year. These are among the "straws" that show how Milwaukee is going abond, in spite of the bard times. The report from the Fifth Ward, which will astonish all who have not visited that quarter of the city lately, will be given in our next. We report that the figures furnished by: Mr. WALL are carefully compiled from personal inspection, and may safely be relied upon as full and accu-

BATHER WITHIN THE CITY LIMITS .- The ordinance which was designed to prevent bathing within the limits of the city in exposed places, is shamofully violated every day, and we have, as yet, heard of no case of punishment for the ofence. At least half a dozon boys and men might have been seen for the past two mornings, within a few steps of Onelda street bridge, bathing in the river, quite exposed to the public gaze. On the lake shore, too, the practice appears to be carried on, without any fear of the law or remark for decency, in the most public places. In the evenings, particularly, when so many ladies and gentlemen are out walking upon the bluffs, the shore is usually lined with naked boys, some of and animals, as they passed through the streets, them big enough to be called men-bathing and attracted considerable notice. City Lind Orride, Ochen & Walt, ner East Water and Wisconsin Sta., June 24, '58. This morning we give a report of the Fourth Ward, and we are almost become dumb. When we commenced to canvass the Fourth Ward we did not anticipate to find what we have found but we have said before, that no one knows anything about the improvements of Milwaukee, until his attention is particularly directed to it. We can say for the Fourth Ward, that it has now three superior dwelling houses, and buildings which, perhaps, cannot be excelled in the United States. This is saying much, but what is due to each Ward they should have credit for. It is impossible to describe the various buildings which are now under way and about being finished in the Fourth Ward. But in justice we must mention a few of our enterprising citizens,

the good of his lonow mortals, could go obliging hosts, good fare, comfortable and clean through and finish a building so complete, and comes and bods, and low charges \$1,50 per day. If any body wants more than this, they should he deserves more praise than has been given

Well it is making the comments on the Fourth Ward too longthy, but we will not close them until we have given our idea, and it is this: That the City Council and Aldermon, at their next meetting, change the name of Spring St. Avenue, after it leaves Spring at. to that of Downing Aveuuo, in memory of that illustrious Downing who devoted his time and talents in beautifying our country, and caused us to lift our ideas upwards .-We now close, and invite all that have anything

Much doubt is still outertained here as to the instrument, and the unpub-

apprehension, which Col. Kane's repeated con-ferences have not removed, At last official accounts they had possession of, the mountain passes, and the ultimate design of the exiducin a matter wholly of speculation. For this reason, and others that may not be dis-closed, it is deemed most prudent—if not abso-int-ly necessary—to maintain a show of effec

intily necessary—to makrain a show of effective force, in order to second the civil officers in asserting the federal authority.

The eight new sloops of war ordered to be built, will be apportioned as follows: One each to the navy yards at Portsmouth, Boston, New York, Philadelphia, Washington, Norfolk, Pensacola and San Francisco. The latter, provided the necessary timber can be produced there.

The Cleveland Wool Depot.

The Cleveland Wool Bepot.

Retablished in the Winter of 1854.

As been in operation over four years, during, which period, though its progress has been impeded by the adverse yearsof 1854 and 1857, the practicability of the plan has been clearly demonstrated. This the house alfords superior advantages to the Wool Growers of the West, as a medium for passing their wools into the hands of the manufacturer, is now mellouger a question. But atthough a very large number of Wool Growers have availed themselves of these advantages during the last four years, yet, surprising as it may appear to many, our reacipts have been larger from Merchants and Wool buyers than from Wool growers, and this may be accounted for mainly from the fact, that, as a class, the wool growers have been larger from Merchants and Wool buyers than from Wool growers, and this may be accounted for mainly from the fact, that, as a class, the wool growers have been of a few operators who are wholly upposed to all efforts having for their object the systematizing of the wool trade, or the enhancement of priots to the producer.

The past year, characterized sat is has been by the most disastrous diamolal embarrassments, has been one of the most unfortunate for negotiating and managing sales of wool, and the fact that the enterprise has been remarkately successful, notwithstanding these disadvantages, and given almost universal satisfaction to consignors, should, we think, inspire sufficient confidence to induce large consignments from wool growers.

To those who have been principled by faiss rumors, and who have manifested a want of confidence to induce large consignments from wool growers, particularly the prisent year, cannot after the document of the wool depot spisem, and who have manifested a want of confidence to induce large consignments from wool growers, particularly myte and we have the confidence of the confidence of the mount of the wool depot spisem, and we have the mount of the wool depot spisem, and we have the mount of the wool depot s To those who wish to consign woul to us, we will

PRIDAY MORNING, JUNE 25.

Catting their "Deserts." Gen. Lanz, of Kansas, having had the mister tune to kill a fellow-being in a wretched feud about a well, and having been held to answer to the laws of the country for this hornicide, the laws of the country for the hornicide, the laws of the topic as follows:

News discourses upon the copic as follows:

I'm Lune, of Kanses, is getting his deserts, right and left. The Chicago Tribune, a prominent Republican journal, experiences a secsation of "gratitude to Providence" that it can speak its mind freely of Gen. Jin Lane, of Kanses, and says the reason why it never could do so before, was its fear that "a righteous cause would suffer be the agreement of a wasshould." do so before, was its sear that 'a ginted a season would suffer by the exposure of a vagabouid."
It admits having hnown silisions that Lane was "a postilent and inconditry demagogue;" yet, strange to say, its supposed duy to its party straled its uiturance. But now that he is a murderer, and therefore no longer available and leader and candidate for the United States Studies of the United States Studies with an immense feeling of ate, the Tribune, with an immense feeling o relicf, casts bim off,

The bill which accomdisposition to uphold or defend murderers, swin- panies the report donates to the State of Num diers or villains of any description, or degree, morely because they call themselves Repub-

Our Demogratic breihren, however, are much more leniout. While thus bitterly denouncing Lanz, they do not besitate to justify and even appland JANES BUCHANAN, for appointing GEO. W. CLARK, the admitted murderer of BARBER in Kausse, to a lucrative office under the General Covernment. The murder of BARBER, a peaceful, ineffensive, law-abiding citizen, was one of the bloodiest in that long sailes of outrages which the "Border Rufflans" committed and the Coneral Government, consided at ... The perpetrator of that fiendish crime, instead of paying the penalty that the law attacked to murder, has "got his deserts" in the shape of a fat office from President Buckanan | and the hypocritic cal party organs, which are just now-clamprous for the life of LANE, openly approve or tacitly nescut to this appointment of CLARK, Had Mr. RUGHANAN done no other act to dicredit his administration, this should consign it to lasting in-

Serving him right.—Rickland County

While the press of the State, with few exceptions and without distinction of party, is denounclug, in proper terror, the unanthorized and illogal act of Secretary Jones, the Madison Argus, the receiver of this inicat "steal," has the following characteristic reference to the

To satisfy starving and vorscious bisely republican nowspapers, at a few county state, a few black republican officers have sent back blacks to the Secretary of State, thus obtailing a double expense upon the public. The only display of "vorsuity" in this connec-

And the insignation that only "black Republican newspapers" protest against this wrong, or that only "black Republican ollicers " have promptly returned the Secretary's blacks, is, of course, utterly and wilfully false.

On motion of art. Final into the relating of the minutes of last Scasion was dispensed with Sundry accounts were presented and on motion referred to the appropriate Committees. The committee on public buildings submitted the following report:

The committee on public buildings have examined and taken into consideration the results: amined and taken into consideration the repairs OFFER FOR SALE, IN LOTS TO SULT and improvements which they deem necessary to be made in and about the county Poor House to be made in and about the county Poor. House and Farm lov the present year and respectfully submit the following report:

First, Your committee recommend the eraction of a Sohoo! House on the county farm for the purpose of educating the obliders, and keeping them separated from the influence and often corrupt examples of the older immates. Your committee are of the oploider that's frame building tender penned with stone, 20 feet wide by 40 feet long, and two stories high, would answer the required purpose, the lower part to be divided into small sleeping rooms for the children. The above project if proporty carried out, will make useful and respectable citizens of the paper children instead of candidates for our.

pauper children instead of candidates for our jails and prisons.

Second, Your committee recommend the removel of the barn standing near the road, and place it at the end of one further south, and to CTURENCE Plant 1 was a second of the public is particularly invited to the fact that 1 south side of said barn when so removed.

Third. The healed of the main building is much in want of cleaning and repairing. Your committee have examined the Main. Halls and the main the said. Halls and the main the said that the said the said. thick it best to line up the walls about five fee high with too ched flooring to provent the obil dren from knocking off the plaster.

Fourth: Your committee would also recommend that the Buperlatendents of the Poor be instructed to furnish lime and whitewesh brushes.

and have the inmates of the poorhouse clean and whitewash said boilding.

Figh. It is also requisite to have a fonce built around the yard to keep the obliden from run-bing all over the farm, destroying fruit trees and trampling over the crops. Your committee garmonised to the Boird to employ an corpenter who now realths on the proof error at a moderate who now resides on the puor farm at a moderate sum to build said fonce, and to do such other work as may be necessary.

Sixth. There is also much needed a distern to

Sinth. There is also much needed a cistern to hold rainwater for the use of the house. Your committee recommend the building of a suitable one for the place. We also recommend the erecting of a small building to be of the asme width and hight as the old one fund lorty feet long, at the south end of the prosent dialog room, for the purpose of coloring the present dialog room; it is also necessary to provide a large holder in the wash room for the purpose argo boiler in the wash room for the purpose of boiling clothes.

Seventh. Your committee would further re-

commend that the County Surveyor be sent out to curvey a certain line on the County farm, to which there seems to be some dispute about; al-go the oven for baking is out of order and needs ome repairing. Patrick Walsh,

There was a little more activity to our product mardays past, and idealers in consequence, operate mor uny extent to day, boing generally well supplied. None other than the very choicest samples of wheat bring the highest milling prices at present, as there is so much room for selection that millers wilt not took at an infe-rior article, and the flour which is being made now is of an excellent quality generally. We preceive by the teler, Milwaukee club selling at 94c, against 89c for "Chicago spring." We have had one or two nice showers this which laid the dust beautifully, and must have infined new vigor into the growing crops. We quote to-day:

figures generally. There is probably a greater range i prices at the present time, than heretofore this season No. 1 ranging from 65 to Tic, according to quality. Th majority of the sales, it will be seen, however, are at 66 and 70c, and these may be considered the average pri-ces for good and choice No. 1. There is considerable for the wide range in prices. We note the following sales, which, however, do not include all the transaction of the day: -12,0:0 bus extra club on board on private terms; 190 bags choice of ub to mill at 730; 045 bags do at 72c; 2,589 good club or choice No. 1 at 71c; 900 bags do at 70c; 2,000 bags good No. 1 at 69c; 500 bags do at 68 jc; 180 bage do at 650; 50 bags ordinary at 675c; 140 bage do at 67c; 180 bags puor (damp) at 65c; and 2,000 of an inferior quality at 65c. Winter wheat quiet; sales of \$6 bays w. w. at 85c. The range is 80 to 8616c for white
